Update #5 to Water Situation in Hacienda Neighborhood in Sunland Park *Temporary Water Service Interruption*

Water service to the Hacienda neighborhood in Sunland Park will be temporarily interrupted beginning at approximately 9 a.m. tomorrow, Thursday, Aug. 7, 2025, to allow the Camino Real Regional Utility Authority (CRRUA) to repair a water main break. CRRUA estimates it will take several hours to remove the broken section of pipe and replace it with new pipe.

The line break is approximately 12 feet below ground and due to the high groundwater table, water had to be removed from the site of the break to allow crews to initiate the repair.

CRRUA secured the services of a drilling contractor who installed two temporary well points, each with 10 horsepower submersible pumps, to drain the groundwater.

For the duration of the repair, the road to the site will remain closed at 2056 Boy Scout Lane. Residents south of that address will have access on Futurity Road and San Gabriel Drive. Residents to the north have access via a detour on Frontera Road

CRRUA will continue to post updates on the CRRUA and City of Sunland Park websites and Facebook pages.

For questions or more information, contact CRRUA Customer Service 575-332-1076.

CRRUA apologizes for the inconvenience and thanks customers for their patience during this time.
