

CRRUA is working quickly to restore service to the 400 Block of Morrison Rd. and the Riverside subdivision following two water line breaks. Once service is restored, water could appear discolored for a short time due to naturally occurring sediments in distribution lines that are disturbed when water flow resumes. Although the water is safe to consume, CRRUA recommends waiting for it to clear before washing laundry. The discoloration should disappear within 24 hours. If it does not, residents and businesses should flush all cold-water faucets in the house for five minutes. (Posted 08-08-24. Updated @ 12:33 p.m.)
